

Innovators;  
**Defining Our Future**

# The Environmental Innovator

We aim to simplify waste management through our expertise and portfolio of products and service offerings, creating a sustainable city for the future.

Learn how we are defining the solution.

MEA forges ahead  
with its suite of  
innovation and  
technology to meet  
the increase in  
demand for more  
efficient waste  
management

In today's world, waste management is no longer a simple matter of collection and disposal. There are new challenges that arise from a modern society's requirements for a clean environment.

At MEA Environment, we aim to define how effective waste management solutions can better our cities and we actively work on solutions towards this.

Based in Singapore, our core business focuses on providing sustainable waste management solutions and systems for the local market. We also work in tandem with distribution partners to provide products and services required by the solid waste services companies, private establishments and governmental agencies.
